

BEING HEALTHY AT ST JULIAN'S CHURCH SCHOOL

In Early Years Foundation stage we have been taking part in 'Sunshine Circles' which helps us to feel safe, happy and ready to learn. We really like this because

Quote: 'it makes us feel happy' and 'we all work together and have fun'

We have been learning more about healthy eating, growing our own veg, using new and different ingredients and making healthy foods. We made courgette and bacon muffins- delicious!

We have been taking part in our new PE curriculum- FUNDS and learning lots of new skills. We are having fun assessing ourselves and setting new challenges for ourselves. We have also really enjoyed taking part in lots of different sports like Street Dancing, gymnastics and basketball. We love being a part of sports competitions, like the Swimming Gala, where despite being such a small school we came 5 th overall.

Quote: 'we felt proud and exhilarated to be part of this competition and to achieve so much. And it helps to keep us fit too!'.

We worked with the Willow artist Mary Cross to design and make a living willow dome to help keep us sheltered from the sun during the summer time. It's grown a lot now and we love using it as a den too!!
