

# Fantastic Farrington are Happily Healthy!

We have our own allotment where we grow fruit and vegetables. Here's Class 2 with their last harvest of the year!

We have a tuck shop during playtimes where everybody can buy healthy snacks. We run it because it helps with our maths too!

We love to sell what we harvest as well as cook with it. Ruby is eating our 'Marrow and Runner Bean Soup' with onions!

Our school is very good at recycling everything we can, including our food. We make our own compost which we use on our allotment to help our plants grow.

All the classes take part in a take 10 activity every morning and once a week we do the 'Golden Mile' - we see how many times we can go around the playing field in 20 minutes. 4 laps is a whole mile!

All the classes love doing lots of different sports in school and after school. We love football, tennis, rugby, swimming, golf, gym and dancing as well as lots of others. We enter competitions too to see if we can win!
