

Secret Responses

KS 2

As activity for children who struggle to voice their responses in front of their peers. Using secret responses can help children who get very anxious.

What you will need

White boards
Board pens
Cloths/rubbers

Method

- During circle time hand out the white boards, pens and rubbers.
- Instead of asking the children to say their answers/comments ask them to write them on the board and then hold their white boards above their head with their answers facing behind them (so nobody else in the circle can see).
- You can then walk around the outside of the circle and see all the comments.
